

Notes: 1) Refer to section 6 and Section 7 for hardware options of MOKI, AR92, MULTIPLEXERS and CAN LINES.
 2) As the Multiplex units are controlled by special algorithm in case needed, the latest vehicle program should be downloaded from online system E-DOC.
 3) This booklet is published for serial production vehicles. Refer to E-DOC online to access the most up-to-date booklets by entering vehicle VIN number.
