Release Date: 11/09/2020

Symptom/Vehicle Issue: MOPAR Trailer Brake Accessory Kit And Instructions

Discussion:

Several techs have contacted technical support with questions on the installation of the trailer brake kit. For JT Models : disregard ADH sales code references in the early version instructions. Optional harness 82216416AA referenced in instruction sheets is for JL Wrangler only without production trailer tow. It does not apply to JT. Instructions are currently in the process of being updated.

If the JT or JL is built prior to Jan 2020 and has one or several of the below DTC's after installing either Mopar or aftermarket trailer brake controller, engineering is aware and investigating a fix. Do not replace the Trailer brake kit or components for these DTC's. Stay tuned for a service publication...
