INFINITI; DISPLAY CONTROL UNIT INFORMATION

This bulletin has been amended. See AMENDMENT HISTORY on the last page.

Please discard previous versions of this bulletin.

APPLIED VEHICLES: 2017-2018 QX60 (L50)

2017-2018 QX60 Hybrid (L50) 2018 Q70 Hybrid (Y51) 2017-2018 QX30 (H15) 2018 QX80 (Z62)

SERVICE INFORMATION

The applied vehicles listed above are equipped with a new control unit for Bluetooth®, display, audio, navigation, and telematics systems.

This new system uses a Display Control Unit (DCU) that incorporates the display and is the main controller for most functions of the audio, navigation, telematics, and Bluetooth® systems. The DCU is a single display version of the system used in the 2014-2018 Q50.

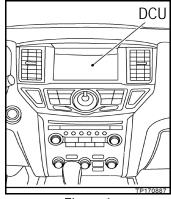

Figure 1

The Audio unit, Navi control unit (if equipped), and Telematics control unit (if equipped) provide information to the DCU.

The display and Bluetooth® module are built into the DCU.

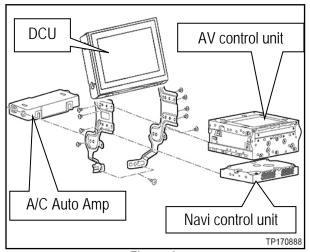

Figure 2

Infiniti Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Infiniti retailer to determine if this applies to your vehicle.
