Mounting for Rear View Monitor and Back of Cab Camera

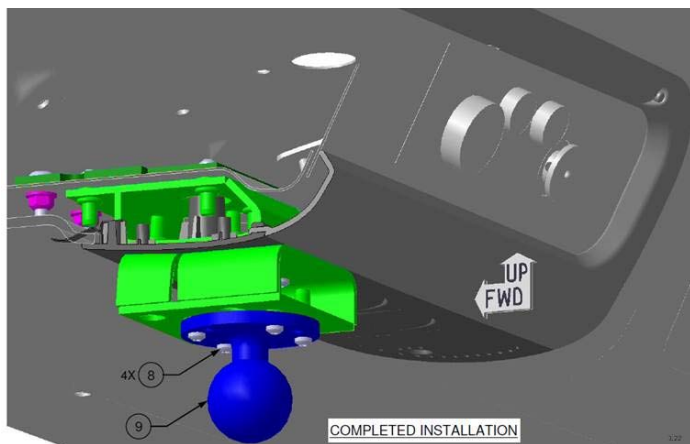

Freightliner Trucks offers a mounting system for a vendor rear view camera. Freightliner Trucks offers a factory mounting for Alliance Technologies' Third Eye Video System on M2 models. This option is now available to order in SpecPro.

What is it?

- Power, ground and roof mounted bracket for rear vision monitor and camera cable leading to the back of the cab
- The bracket is located in the overhead in the center of the windshield

Why is it important?

- Factory mounting in order to install vendor rear view camera

Key Benefits:

- Safety – An installed rear view camera allows drivers to see behind the cab

Key Applications:

- All Vocational Applications

Availability:

- M2 106
- M2 112
