

# WMD1 Workshop Campaign - PCM Software Update

Version 1

---

**The PCM Software Update in context of this campaign is necessary to restore the satellite map view in the navigation of the affected vehicles**

With publication of this campaign, there is now also a possibility of claiming the work required for restoring the satellite map view function.

This also applies if the required software update has already been performed on a vehicle that is now assigned to this campaign but the work performed could not be claimed until now.

---

## Overview

Due to a change in the interface for providing the satellite map data for Porsche Communication Management (PCM), the satellite map view will no longer be available in Navigation on the affected vehicles.

To restore the satellite map view, a PCM software update must be carried out.

Model type	Cayenne (92A) Macan (95B) Panamera (971) 718 Boxster / 718 Cayman (982) 911 (991)
Model year	2017 - 2018

## Required tools

Please note:

The SD memory cards for the PCM software update specified below were previously auto-shipped to dealers and are already available. Should these, contrary to expectation, not be available, small numbers can be reordered as needed. (max. 2 pieces per required variant per Porsche Dealer).

The SD memory cards must remain in the Porsche Dealer as part of the workshop equipment and must not be handed over to the customer or left in the vehicle.
