Product Change Notice - Patio Rail Kit side panels from gray to black

Dear Valued Customer:

Please be advised Lippert intends to change the fabric on the side panels of its patio rail kits from solid gray to a mesh black.

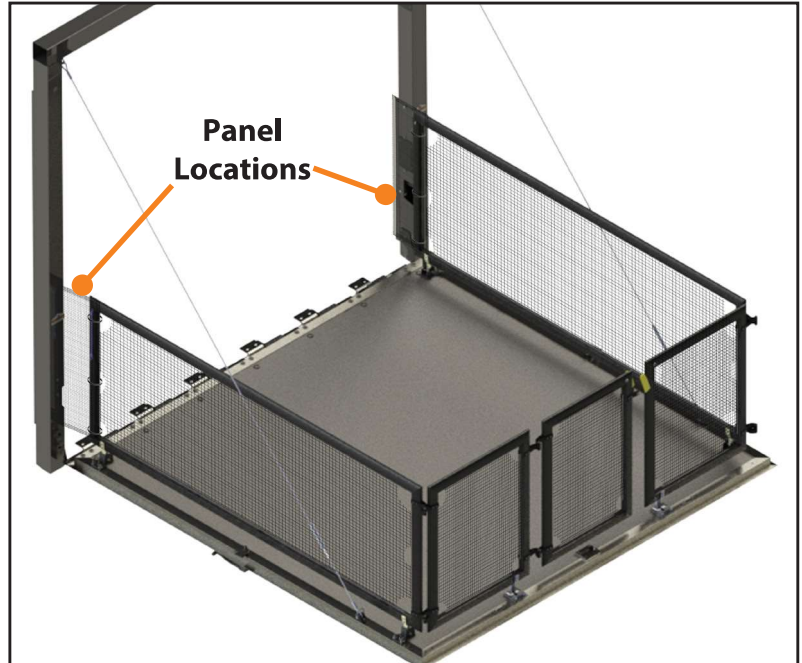

The panels affix to the patio rail and the door frame on both sides of the rail kit. The new panels better match the overall design of the Patio Rail Kits, both in color and material.

There is no change in installation or operation with the material change. The new panels attach the same way as the current to the door frame and rail kit.

The change will take place on a running basis, starting immediately. There is no price change. The current gray panels had right and left part numbers - 313881 and 313882. The new black mesh panel PN 2021097075 replaces both gray PNs. The top level patio rail kit number will not change.

Current gray and new black panels.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon
