2021MY Bronco G21A-3 (ECG) 1.6.0
Your system is up-to-date. The most recent update includes the following: Ford Power-Up 1.6.0 Refinements, bug fixes This was a routine update where we make minor changes here and there and squash a few bugs. Ongoing updates like this help ensure that you'll always be driving the best possible version of your Bronco. Enjoy.

2021MY Bronco G21A-3 (SYNC) 1.7.1
Your system is up-to-date. The most recent update includes the following: Ford Power-Up 1.7.1 Navigation, other enhancements Navigation will automatically make helpful destination suggestions (but you can turn that off if you like), plus new cloud connectivity combines conversational voice command recognition with internet-based search, so you get the latest info with almost every request. Apple CarPlay® compatibility will display on-screen turn-by-turn navigation in your instrument cluster. The user-profile icons on your SiriusXM® with 360L radio are a bit bigger, and there were a couple of bug fixes. Ongoing updates like these help ensure that you're always driving the best possible version of your Bronco. Keep in mind that update availability varies by model.

2021MY Bronco G21A-3 (TCU) 1.9.0
Your system is up-to-date. The most recent update includes the following: Ford Power-Up 1.9.0 New SecuriAlert™ SecuriAlert gives you extra peace of mind by alerting you through the latest version of the FordPass™ App whenever your hood, liftgate or a door is opened. SecuriAlert is an early release for you to

explore so we can better understand your interest in the feature. Ongoing updates like this help ensure that you're always driving the best possible version of your Bronco.
