

Technical Service Bulletin

00 Traction and brake warning lights flash during diagnosis

00 21 52 2064248/1 September 16, 2021.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
Audi e-tron GT, Audi RS e-tron GT	2021 - 2022	All	Not Applicable

Condition

Customer states:

- No customer concerns, it is found during PDI or any other diagnostic work.

Workshop findings:

- During service it is noticed that the traction, brake, and ABS warning lights are flashing simultaneously.

Technical Background

While using the diagnostic tester to access various modules the vehicle will go into a diagnostic state. This is indicated by the simultaneous flashing sequence of the traction, brake and ABS lights. This does not indicate an error.

Production Solution

Not applicable.

Service

While using the diagnostic tester the traction, brake and ABS lights may start flashing simultaneously (Figure 1).

This is indicating a diagnostic state of the system and will stop flashing upon exit of the diagnostic session. This display of the lights is not indicating a problem in the vehicle.

Figure 1. Traction, brake, and ABS lights flash on/off together.

Technical Service Bulletin

Note:

If any of these lights remain on either before or after service, carry out normal diagnosis.
