TECHNICAL BULLETIN 15 SEP 2021

© Jaguar Land Rover North America, LLC

NOTE: The information in Technical Bulletins is intended for use by trained, professional Technicians with the knowledge, tools, and equipment required to do the job properly and safely. It informs these Technicians of conditions that may occur on some vehicles, or provides information that could assist in proper vehicle service. The procedures should not be performed by 'do-it-yourselfers'. If you are not a Retailer, do not assume that a condition described affects your vehicle. Contact an authorized Jaguar service facility to determine whether this bulletin applies to a specific vehicle.

SECTION:		
100-00		
SUBJECT/CONCER	N:	
Service Action: Charge Cable	Plug Unable to Lock or Unlock	
AFFECTED VEHICL	E RANGE:	
MODEL:	MODEL YEAR:	VIN:
I-PACE (X590)	2021	600732-614118
MARKETS:		
CANADA, USA		
CONDITION SUMMA	ARY:	

SITUATION:

A potential issue has been identified on certain vehicles within the listed Affected Vehicle Range where the charge cable may fail to lock or unlock. In some cases, the customer may be unable to charge the vehicle or remove the charge cable.

ACTION:

Retailers are required to HOLD affected new vehicles that are within your control and refrain from releasing the vehicles for new vehicle sale pending completion of the procedure(s) detailed in this Technical Bulletin. Unsold vehicles should have this performed as part of the Pre-Delivery Inspection (PDI) process but must have it completed prior to vehicle handover to the customer.

Affected vehicles already in the hands of customers should be updated at the next available opportunity.

WARRANTY INFORMATION:

NOTE:

Use the Jaguar Land Rover claims submission system to make sure that a vehicle is eligible for this program prior to undertaking any rework action.

At the time of confirming a booking for vehicle repair, make sure that all open Recall and Service Actions are identified to make sure the correct parts are available and adequate workshop time is allocated for repairs to be completed at one visit.

Warranty claims must be submitted quoting the Program Code and the relevant Option Code; this will result in payment of the stated time. The SRO and parts information is included for information only. The Option Code(s) that allows for the drive in/drive out allowance may only be claimed if the vehicle is brought back into the workshop for this action alone to be undertaken. Repair procedures are under constant review and therefore times/prices are subject to change; those quoted here must be taken as guidance only. Use TOPIx to obtain the latest repair time. This program is valid for a limited time only. Warranty claims with a repair date prior to the March 31, 2023 closure date must be submitted or payment within 30 calendar days of completion of the repair.

PROGRAM CODE	OPTION CODE	DESCRIPTION	SRO	TIME (HOURS)
H327	A	Battery Charger Control Module (BCCM) - Update - Replace ECU	85.86.18	0.2
H327	В	BCCM - Update - Replace ECU Drive in/drive out	85.86.18 10.10.10	0.2 0.2

Normal Warranty policies and procedures apply.

DIAGNOSTIC INSTRUCTION:

. CAUTIONS:

This procedure requires a minimum of Pathfinder 336 installed or later..

All ignition ON/OFF instructions must be followed. Failure to complete these instructions may cause damage to the vehicle control modules.

Connect the JLR approved battery support unit.

NOTE:

The JLR approved diagnostic equipment will read the Vehicle Identification Number (VIN) for the vehicle and automatically take the vehicle out of 'Transportation Mode' if required.

- Connect the JLR approved diagnostic equipment to the vehicle and begin a new session.
- ^{3.} Follow the JLR approved diagnostic equipment prompts.
- Select 'ECU Diagnostics.
- Select 'Battery Charger Control Module BCCM.
- Select 'Update ECU'.
- Follow all on-screen instructions to complete the task.
 - 4. If required, reset the vehicle to 'Transportation Mode'.
 - 5. When all of the tasks are complete, exit the session.

Disconnect the JLR approved diagnostic equipment and the JLR approved battery support unit.
