

MITSUBISHI MOTORS NORTH AMERICA, INC.
4031 Aspen Grove Dr, Franklin, TN 37067

October 22, 2021

To: All Mitsubishi Dealer Principals, General Managers, Sales Managers, Parts Managers & Service Managers and Technicians

Subject: Advanced Driver Assistance System (ADAS 2021)

The Mitsubishi Technical Training Group is proud to introduce the all new Advanced Driver Assistance System instructor-led training course. This competency-based training course will guide the technician through the features and operation of these systems and will equip them with the tools necessary to diagnose driver and pedestrian safety systems equipped on 2022 model year vehicles.

This two-day instructor led training will be available at MMNA's three Technical Training Centers. Providing outstanding customer service will help you increase your long-term customer retention – leading to increased sales and profitability. Mitsubishi's dedication to our dealer partners is to provide valuable material which gives the technician the information needed to diagnose and repair vehicles correctly on the first attempt.

Technicians will become proficient in the following tasks:

- *Calibration of Front Facing Cameras on Outlander, Eclipse Cross, Outlander Sport, Mirage, and Mirage G4*
- *Calibration of Around View Cameras on Outlander and Eclipse Cross*
- *Diagnosis of concerns with MI-Pilot partially autonomous drive (new 2022)*
- *How to program ADAS Control Unit2*
- *When to perform MAC KEY WRITING*
- *Eight-channel CAN Gateway network diagnosis*
- *Building a Data Monitor list and monitoring input signals*
- *Using a DVOM and tracing electrical concerns*

Reserve a spot for your technician(s) in the newest generation of technical training available starting November 8th, 2021.
