

Product Change Notice - Product labeling on stock windows

Dear Valued Customer:

As part of our ongoing efforts to improve warehouse and transportation efficiencies and quality, Lippert will no longer affix an RPO label to individual stock windows.

All bundles and shipping racks will still be labeled with pallet labels referencing Customer Purchase Orders (PO#), part numbers, descriptions, quantities and due dates.

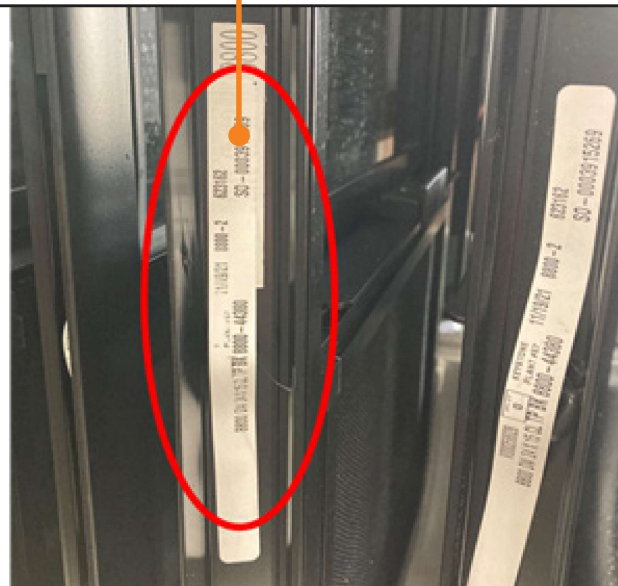

This change will reduce redundancies in finished goods identification since the windows are already labeled. This will also result in less material handling and repackaging which could contribute to minor defects such as dents or scratches thus improving quality.

This applies to all stock windows which includes various sizes of 2000VEPW, 8800DW and 8800VS.

This label will remain

This label will be removed

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Mason Ogle

VP of RV Sales
