## Product Change Notice – OCTP to LCD Interface Transition

In an effort to keep price increases down and components available, we are discontinuing our 5" OCTP Leveling Interface.

This is in part due to semiconductor shortages, end of life components, and higher percentage increases on assembly. The OCTP is being replaced by an updated version of the original LCD interface.

**Current OCTP 5"**

**New LCD Touch Pad**

### Key differences:

- Simplified and faster installation for production.
- Immediate cost savings and lower future increases.
- One Control compatibility.
  - Previous LCD interface system was not OneControl compatible.
- Homing and zero point configuration quicker for production, dealers, and retail owners.

## Frequently Asked Questions:

- 1. Will a new part number be required?** Yes, see above table for current and replacement part numbers.
- 2. Does the price change for the item?** Yes, please see quote for new price.
- 3. Is the new part wholly interchangeable with the previous version of the part?** No, the LCD interface is not compatible with a previous OCTP. We will have stock of the 5" OCTP available for service and warranty.
- 4. Does the customer need to replace inventory?** No, the transition will be made on a running bases starting as early as 11/01/2021.
