

SERVICE BULLETIN

Classification: EL21-011A	Reference: NTB21-063A	Date: December 14, 2021
------------------------------	--------------------------	----------------------------

COMBINATION METERS CANNOT BE SWAPPED

This bulletin has been amended. See **AMENDMENT HISTORY** below.
Please discard previous versions of this bulletin.

APPLIED VEHICLES: 2022 Pathfinder (R53)
2021 Rogue (T33)
2021-2022 Sentra (B18)

SERVICE INFORMATION

Do not swap combination meter modules between **APPLIED VEHICLES** vehicles for any reason.

Due to a new electrical architecture, the vehicle mileage is now stored in multiple control modules.

When a mileage difference is detected between modules, the module with the lower value will be immediately overwritten, replacing it with the higher mileage.

If a new combination meter module is installed, it will automatically be overwritten to the correct vehicle mileage.

AMENDMENT HISTORY

PUBLISHED DATE	REFERENCE	DESCRIPTION
July 19, 2021	NTB21-063	Original bulletin published
December 14, 2021	NTB21-063A	Updated APPLIED VEHICLES

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
