**2016-2017 MY KIA OPTIMA VEHICLES
MOTOR DRIVEN POWER STEERING (MDPS)
NEW VEHICLE LIMITED WARRANTY EXTENSION**

PLEASE KEEP THIS LETTER IN THE GLOVEBOX OF THE VEHICLE

January 11, 2022

Dear Kia Optima Owner:

Kia America, Inc. takes pride in providing you with high quality and dependable vehicles. In order to maintain these standards, Kia is extending the New Vehicle Limited Warranty coverage for repairs related to the Motor Driven Power Steering (MDPS) unit, also known as Electronic Power Steering (EPS) unit, due to illumination of the EPS warning light for all 2016-2017 MY Optima vehicles from 5 years/60,000 miles to 15 years/150,000 miles, whichever comes first, starting from the date the vehicle was first put into service. The power steering uses a motor to assist you in steering the vehicle. If the engine is off or if the power steering system becomes inoperative, the vehicle may be steered, but it will require increased steering effort. This warranty extension is to address specific concerns with the functionality of the MDPS unit at no cost to you.

Warranty Extension Coverage:

- If there is a malfunction of the MDPS unit in your vehicle, the EPS warning light  will illuminate to alert you. More information can be found in the Electronic Power Steering and Warning Messages sections of your vehicle's Owner's Manual.
- If, at any time within the extended warranty period, the EPS warning light illuminates in your vehicle, your authorized Kia dealership will diagnose the cause **at no cost to you**. If the diagnosis indicates the condition is caused by one of the components covered under this warranty extension, your Kia dealer will replace the specific failed component **at no cost to you**.
- This extension to Kia's New Vehicle Limited Warranty does not alter the limitations and exclusions contained in that New Vehicle Limited Warranty including abuse, neglect, or external damage.

What Should You Do?

- If the EPS warning light illuminates in your vehicle, contact the nearest authorized Kia dealer to have your vehicle diagnosed as soon as possible. Although the steering assist level may gradually decrease, vehicle steering will continue to be operational.
- To find your nearest dealer, visit www.kia.com and click the "Find Dealer" button in the upper right corner ("Dealers" on a mobile device).
