Product Change Notice - Bluetooth X4 controller connections

Dear Valued Customer:

Please be advised, Lippert has made changes to the connectors on the Bluetooth X4 controller to simplify installation for the OEM customer.

The changes include:

- Incorporated wireless connectivity, via Bluetooth technology, directly to the X4 board.
 - Improved wireless connectivity for the end user.
 - Simplified installation.
- Combined the Reversing and Arctic Power inputs (A).
 - Simplified installation.
 - Savings of OEM wiring and breakers/fuses.
- Changed Arctic Power output from a pigtail to a quick slide connector (B).
 - Simplified installation.
- Changed HC and LC Reversing outputs from a pigtail to quick slide connectors (C).
 - Simplified installation.
- Reduced the number of configurable inputs from one 16-pin and one 14-pin connector to a single 16-pin connector. Reduced from 30 total configurable inputs to 16 total (D).
 - Simplified board layout and ease of installation.

Current controller

Revised controller

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Zachary Inbody
