Product Substitution Notice - 2 -quart hydraulic power unit reservoirs

Dear Valued Customer:

Please be advised, due to material shortages, Lippert intends to use substitute reservoirs per application requirements. Power unit bases (pump/motor) will be retrofitted with the appropriate-size reservoir and corresponding pick up tubes.

There is no effect on installation or operation for the customer with the substitute reservoir. There is no change in part number or in price. Test reports are available upon request. The change is expected to begin immediately and continue as inventory dictates.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Mason Ogle

VP of RV Sales
