(ADAS/DSMC/CCM/PSCM)

2.8.1

Ford Power-Up 2.8.1

Pro Trailer Backup Assist™ refinements; update features

First, if your F-150® has the Pro Trailer Backup Assist™ feature, you can now choose either the checkered target sticker or the yaw rate sensor to detect trailer angle. Second, we began modifying your system so that it can receive even more robust updates in the future. That step will require an additional download, and because of its complexity, that update will take longer.

Note: You may have already received this update but this version has been fine-tuned and includes additional tweaks to other features.

Ongoing updates like this help you enjoy the best possible version of your truck.

2.8.2

Ford Power-Up 2.8.2

Future-proofing your F-150®

The biggest change we made is to begin prepping your truck so that it can easily receive even more sophisticated updates from us in the future. An additional download will arrive soon to complete the process. We also made small enhancements in a couple of other areas.

Ongoing updates like this help you enjoy the best possible version of your truck.

2.8.3

Ford Power-Up 2.8.3

The functionality of your rear view cameras has been improved. For starters, some camera views are now available while your vehicle is in motion. To monitor your cargo area or trailer, simply press your camera button and use the center high-mounted stop lamp camera (if equipped) or rear view camera, or watch the view from a trailer auxiliary camera (bought and installed separately).

We've also added a Picture-in-Picture (PIP) capability to the Trailer Reverse Guidance feature, so you can simultaneously monitor two camera views. This split view allows you to view Trailer Reverse Guidance cameras and your choice of either the center high-mounted stop lamp camera view or the trailer auxiliary camera (bought and installed separately) at the same time to ensure the best visibility while backing your trailer into the tightest of spots.

Ongoing updates like this help you enjoy the best possible version of your F-150® truck.
