

STAR ONLINE PUBLICATION

Case Number: S2223000029

Release Date: March 2022

Symptom/Vehicle Issue: Rattle Noise From Door

Customer Complaint/Technician Observation: Rattle or buzz noise from door area while driving or opening and shutting.

Discussion: Inspect the door cavity for debris. This will require removal of the door panel and door carrier plate to inspect the cavity. Refer to 23 - Body / Doors - Front / PLATE, Carrier / Removal and Installation. Inspect door components for any damage or missing components including door check. Perform any necessary repairs and assemble the door.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
