Product Change Notice – Door Windows

Dear Valued Customer,

As everyone knows, Covid-19, the increase in material prices, international logistics problems and now the war in Ukraine are enormously complicating the work of the purchasing departments. To reduce the impact of all supply chain challenges mentioned above, LCI Italy decided in the last months to design and manufacture its own windows for most of the doors produced in P304 and P308. This will help us to keep under control prices, product quality (full internal control), lead times and response times towards the customers.

Below are the descriptions of the main new windows homologated and ready for production.

Double sheet windows

The product change will take place for the following double-sheet windows:

PART NUMBER	DESCRIPTION
2020117787	DOOR WINDOW 309x744
2020117021	DOOR WINDOW 942x315
2020118401	DOOR WINDOW 256x646

The substantial differences from the previous product are:

- New homologation codes
- White outer protective film

Notes

In the center of the inner sheet you may notice a small lens-shaped dot.

This dot is normal for the production process of the sheet.

Single sheet windows

The product change will take place for the following single-sheet windows:

PART NUMBER	DESCRIPTION
2020118600	DOOR WINDOW SINGLE SHEET 309x744
2021124918	DOOR WINDOW SINGLE SHEET 256x646

The substantial differences from the previous product are:

- New homologation codes
- White outer protective film
- Added perimeter screen printing with shaded texture
- Sheet 10% more transparent

Previous version

Later version

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Emilio Gambineri
