PCM programming issues in Jaguar diesel models (Vehicle non start after programming PCM)	2016-2017MY: F-PACE, XE, XF
<p><u>Customer Voice:</u></p> <p>MIL on, DEF light on, having to program PCM or update PCM as stated on TOPIx.</p> <p><u>Technical Description:</u></p> <p>We are currently aware of some issues when updating the PCM modules on 16/17MY Jaguar diesel vehicles. This has stemmed from validation of upcoming diesel EGR software.</p> <p><u>Status:</u></p> <p>This workaround will load a software file to the Jaguar Land Rover Approved Diagnostic Equipment using the Manual Patch Update process. This manual patch must only be implemented on a SDD 162 machine.</p> <p>This Manual Patch will stay on the JLR Approved Diagnostic Equipment. Recommend installing on all SDD 162 machines to prevent concern on any further vehicles</p> <p>Refer to SSM75732</p>
