Offboard Diagnostic Information System Service (ODIS Service)   **Number: AOS-22-13**

Subject: R242 Calibrate Control Module Test Hotfix Instructions   **Date: June 21, 2022**

> *Important:*
> *We recommend installation of this hotfix on one diagnostic device ONLY. Hotfix must be removed immediately after performing the procedure.*

1.0 – Introduction

This hotfix corrects a software issue with the R242 Calibrate Control Module test. This hotfix is to be use with all 2018-2022 MY Q5 and A5 vehicles. A future ODIS Service Diagnostic Content version update will include this hotfix.

!! The Hotfix must be removed after performing the diagnostic procedure. !!
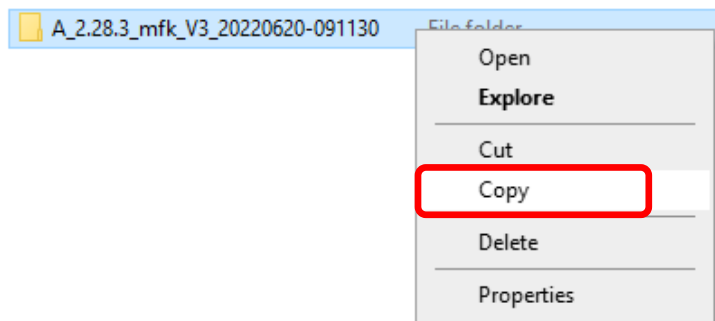

2.0 – Prerequisite

Audi ODIS Service **Diagnostic Content version 2.28.3** must be installed.

To confirm the installed diagnostic content version in ODIS Service, go to: **Info > Versions.**
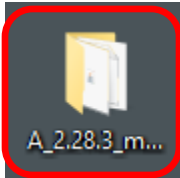

3.0 – Download Hotfix

1. Open **Internet Explorer** on the diagnostic device and logon to **AccessAudi.com > ServiceNet**.

2. Navigate through **Vehicle Diagnostics > Offboard Diagnostic Information System Service > Hotfixes/software.**

3. Click the **R242 Calibrate Control Module Test Hotfix.zip** file and **Save** it to your Windows desktop.

4. Close Internet Explorer.

5. Browse to the desktop and double-click the **R242 Calibrate Control Module Test Hotfix.zip file** to open it.

6. Right click the file name and select **Copy:**

(cont.)

---

7. Right click anywhere on the Windows desktop and select **Paste.** This file icon must appear on the desktop:

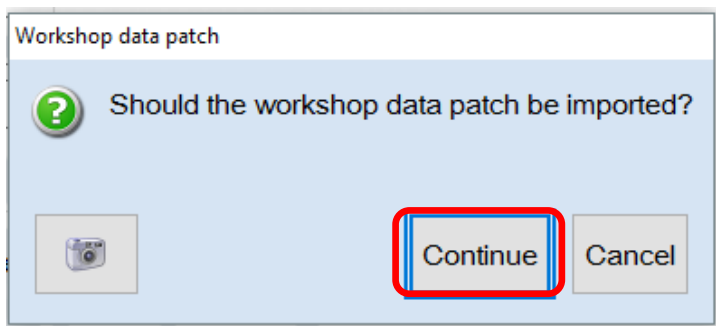

A_2.28.3_m...

4.0 – Install Hotfix into ODIS Service

1. Open ODIS Service ("Run as Administrator")

2. Expand the **Data** submenu and click **Download** (under **Hotfix**):

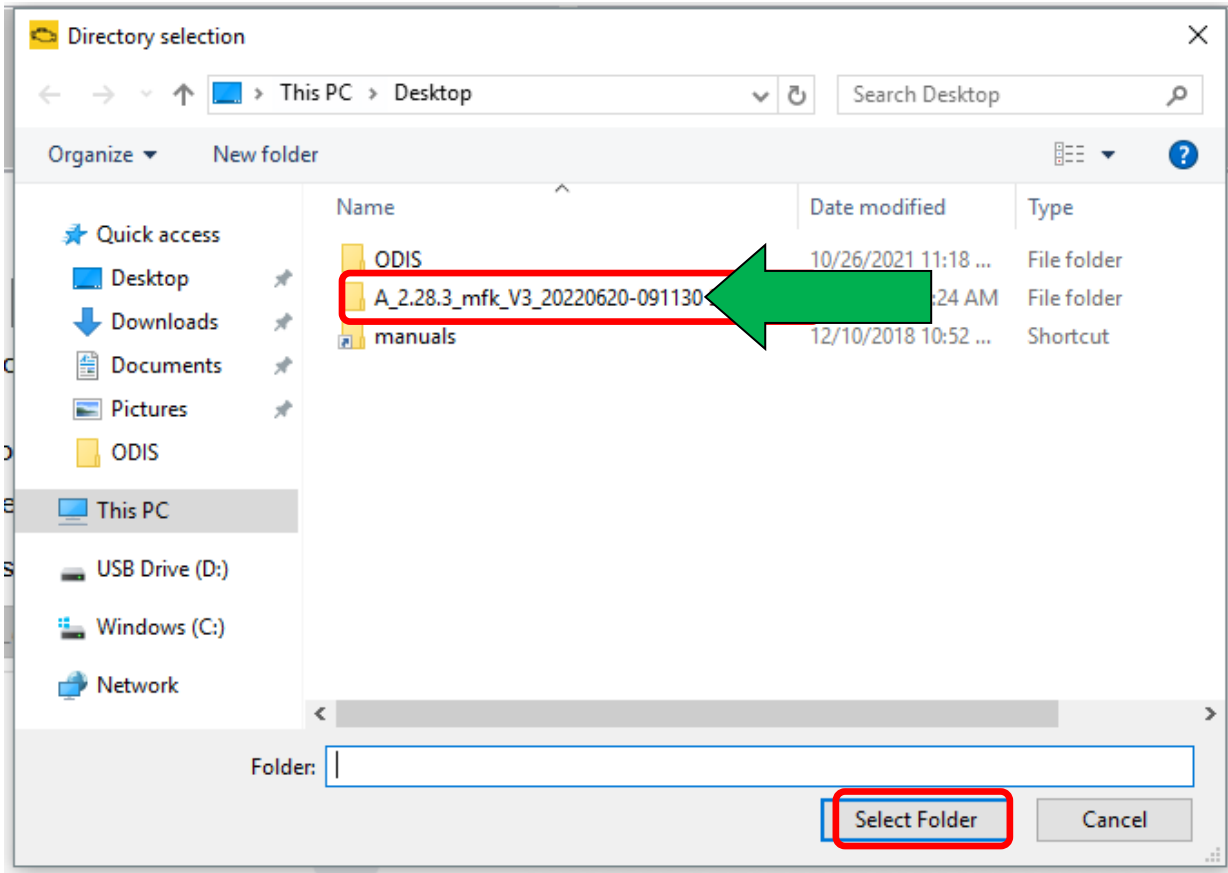

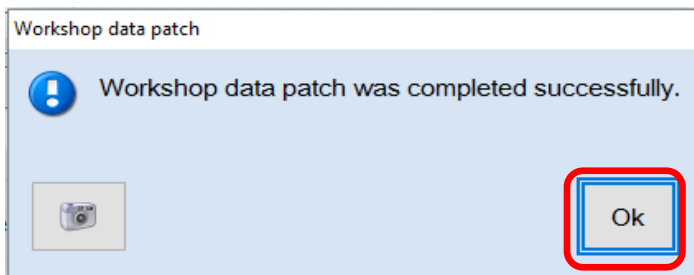

3. Click **Continue:**

(cont.)

Service Information

4. A Directory Selection box will appear. Browse to and **highlight the Hotfix file,** then click **Select folder:**

5. Click **OK**:

6. Perform the diagnostic procedure.

Important:

The Hotfix must be removed after performing the procedure. Failure to do so will cause other vehicle diagnostics sessions to malfunction.
