Special Tools & Equipment

Recommended HV Battery (Whole Car) Fire Blanket

Technical Support

2011.1

USA Only

Porsche Cars North America has recognized a need for fire protection at the dealer level when working with HV batteries. This includes E-Hybrid batteries for the Cayenne, Panamera and the HV Battery for the Taycan. The Bridgehill (Whole Car) Fire Blanket mentioned in this bulletin is used widely across Europe and the US at the dealer level or fire professional. Darley Fire Protection has distribution rights to the Bridgehill Products for the US and can supply the blankets via their website <https://www.edarley.com/car-fire-blanket/> for direct shipment to our dealers when ordered. PCNA will not autoship the Fire Blankets, it will be the dealers responsibility to purchase at least one blanket for every store that has at least one certified HVT technician. If you have questions about the Fire Blanket please feel free to contact Porsche Special Tools & Equipment at askthetoolguy@porsche.us

This bulletin replaces bulletin SPTL 2011, dated August 11, 2020.

Model line	Model
	Panamera (971)
	Cayenne (9YA)
	Taycan (Y1A)
