Note:

This technical bulletin must be read in its entirety before attempting the software update.

This procedure only applies to vehicles with PR code **9VG**.

If software updates or flash campaigns/actions are performed on a vehicle, a charger with at least 70A charging current **MUST** be used in order to avoid problems during the update.

“Park Assist and Rear Traffic Alert is currently not available” is displayed in the Instrument Cluster -**K** when at a stop with no objects around.

DTC U112300: Data-bus error value received with symptom code 2236440 stored in AW 3C Lane Change Assistance Module.

Technical Background

Digital Sound System Control Module -**J525**- (amplifier) software requires updating to the latest level 4319.

Production Solution

Not applicable.

**96-22-01 - Park Assist and Rear Traffic Alert is Currently not Available**

Release date: 11/15/2022

Service

Software Update Procedure

1. Connect a MTRMSP0702 battery maintainer/charger to the vehicle 12 volt battery.
2. Switch the ignition to the ON position.
3. Turn ON the Infotainment System.
4. Connect the ODIS tester and initiate Guided Fault Finding (GFF). Allow GFF to perform vehicle modules interrogation.
5. Once module interrogation is completed, locate Address 47 – Sound System.
6. Check the Sound System Control Module-**J525**- software version (figure 1).

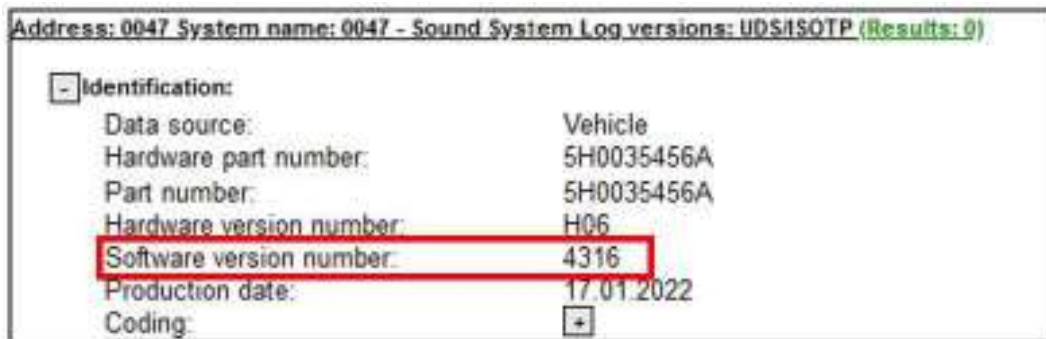

Figure 1.

- 6a. If the current Sound System Control Module software is lower than **4319**, proceed with this Technical Bulletin.
- 6b. If the current Sound System Control Module software is equal to or greater than **4319**, this Technical Bulletin does not apply.

**Tip:****The different options to perform the SVM operation may vary based on model.**

- To proceed with the update, in GFF, select “Special Functions”.
 - Select “Adapting software”.
 - Select “Update software via action code”.
 - Select “Software update via measure code”.
 - Enter SVM code 49F4.
 - Select “Complete” or “Continue” through the test plan as prompted.
 - Follow all remaining ODIS prompts, including leaving the ignition OFF as prompted to complete the test, and exit GFF.
7. After the software has been updated to the latest level, perform a vehicle road test to validate repair.
