

WNS7 Workshop campaign - Re-programming air-conditioning system control unit

WNS7 Workshop campaign - Re-programming air-conditioning system control unit

ID Number	WNS7
Models	Macan (95B)
Model Years	2022 - 2023
VIN List	Attached
Number of Affected VINs	25,306
Issue Description	<p>On the affected vehicles, due to a software error, it is possible that low current limits are sporadically transmitted from the air-conditioning system control unit to the air conditioning fan, especially when using the permanent driving lights.</p> <p>If this is the case, the ventilation of the vehicle interior is impaired by the air conditioning fan.</p> <p>For this reason, the air-conditioning system control unit of the affected vehicles must be re-programmed with an updated data set.</p>
What Dealers Should do	<p>Please arrange for this measure to be carried out as soon as possible on affected vehicles. As of the time of this posting, the repair is immediately available.</p>
TI Number	No. 233-22
Customer Letter	To be posted at a later date.

Required software

PIWIS Tester 3 test software version	41.400.020 (or higher)
