

Technical Service Bulletin

Mazda North American Operations
Irvine, CA 92618-2922

Subject: CENTER DISPLAY OPERATES BY ITSELF (GHOST TOUCH, SURFACE PEELING, WHITE DOTS)	Bulletin No.: 09-003/23
	Last Issued : 01/12/2023

BULLETIN NOTES

This bulletin supersedes the previously issued bulletin(s) listed below. The changes are noted in Red.

Previous TSBs:	Date(s) Issued:
09-003/23	01/03/23
09-036/22	09/09/22

APPLICABLE MODEL(S)/VINS:

- 2016-2021 Mazda2 (Mexico/Puerto Rico) with VINS lower than 3MDDJ*****409029 (produced before July 14, 2021)
- 2022 Mazda2 (Mexico) with VINS lower than 3MDDJ*****452968 (produced before February 3, 2022)
- 2016-2022 CX-3 with VINS lower than JM1DK*****604871 (produced before April 28, 2022)
- 2016-2022 MX-5

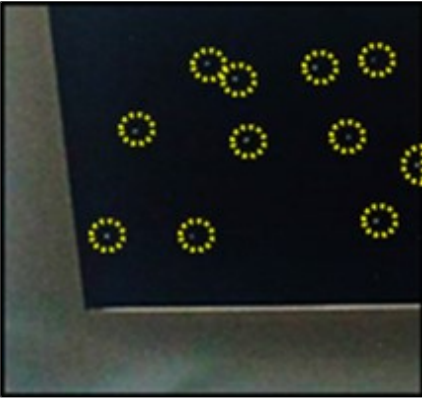

DESCRIPTION

Some customers may complain about infotainment center display:

- Center display touchscreen operates by itself (Ghost Touch).
- The film of the center display may be peeled off.
- White dots may appear on the center display

NOTE: The occurrence of the symptoms depends on the vehicle model and the parts.

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. Mazda North American Operations reserves the right to alter the specifications and contents of this bulletin without obligation or advance notice. All rights reserved. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical---including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

<ul style="list-style-type: none"> • Ghost Touch 	(Touch screen operates by itself)
Peeling of the film surface of the center display	
White dots on the center display	

Repair kits are available to replace just the screen. There is no need to replace the entire infotainment display unit.

Customers having this concern should have their vehicle repaired using the following repair procedure.

REPAIR PROCEDURE

1. Verify customer concern
2. Remove the center display.

NOTE: Wear the rubber gloves to protect the center display lens kit and to prevent static electricity.

3. Verify the part number on the label of the center display and ensure that the replacement kit part number is correct.
4. Place the cushion sheet that the lens is wrapped on a working table.

NOTE: This cushion sheet contains an antistatic agent that not only prevents parts from being scratched, but also prevents static electricity.

5. Replace the lens (inner part) with the modified one.

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians.
