| Symptom | 000101 Diagnostic Concerns |
| Content | <p><u>Issue:</u> Jaguar Land Rover have been made aware of a concern with the Symptom Driven Diagnostics (SDD) on DVD139 where SDD displays a message 'The vehicle Identification number entered is not valid, please enter a valid number', and SDD cannot be used with the vehicle.</p> <p><u>Cause:</u> Not Identified.</p> <p><u>Action:</u> Jaguar Land Rover Engineering department are still currently working on a fix to resolve this concern, until then we have identified a workaround which will allow IDS Classic to be launched. This will require a seeded code which can be supplied from your in market technical support.</p> |
