

ANB7 - Replacing Instrument Panel (Stop Delivery / Recall Campaign)

Model Line: **911 (992)**

Model Year: **As of 2022 up to 2023**

Equipment: Leather-covered instrument panel (multiple M-no.)

Concerns: **Leather-covered instrument panel**

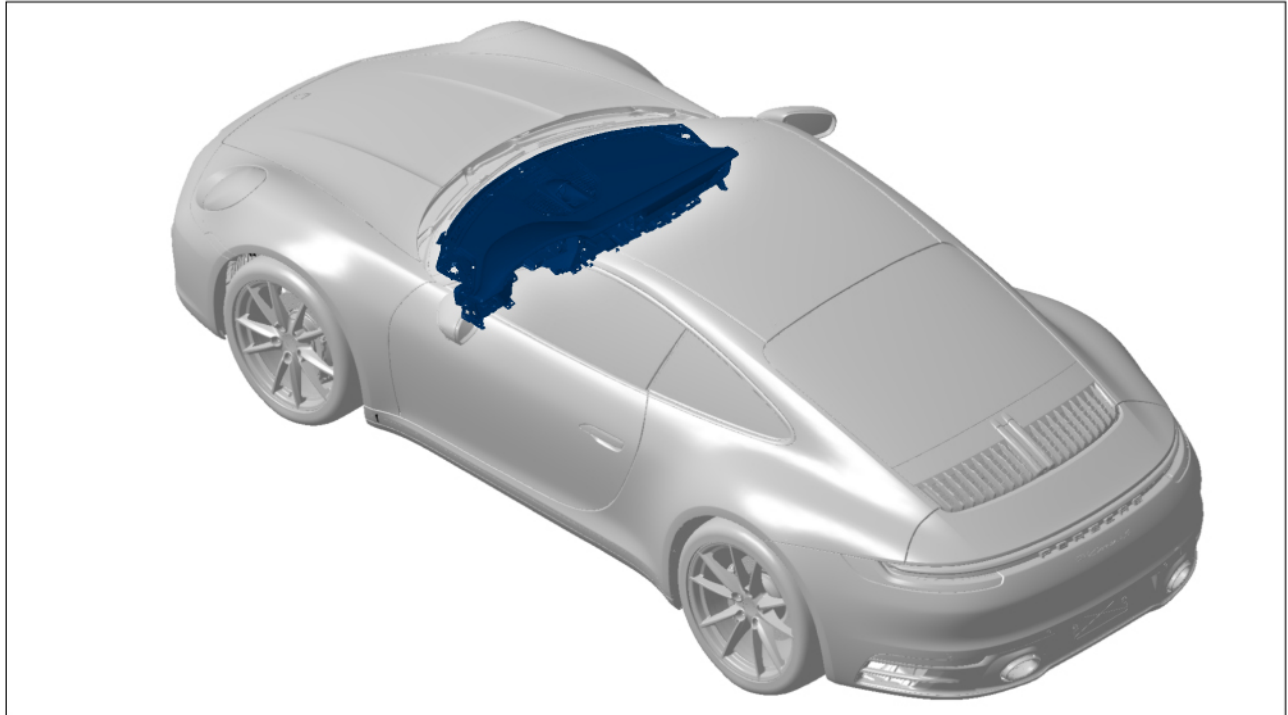

Cause: **Due to a temporary manufacturing issue, it is possible that the bonding of the instrument panel leather in the passenger airbag area was not done correctly on the affected vehicles.**

As a result, when the passenger airbag is triggered and inflates, the components can potentially behave in a way that does not meet the required specifications.

Action required: Replace instrument panel

Affected Vehicles: Only vehicles assigned to the campaign (see also PCSS Vehicle Information)
