

2023 MY F-150 Lightning
(SYNC)
4.1.2.1

Here's the Latest Just for You

We've made improvements to the software update process, including the ability to enter your vehicle using your Key Fob during a non-drivable update.

You'll also now receive new pop-up alerts to inform you when a precondition is not being met so that you can take the required action to receive your update. For a non-drivable update, preconditions may include that your vehicle is parked, it's not running, all the lights are off, doors and trunk are closed, and you're not pressing the brake pedal.

Tell Us What You Really Think

While you may have seen this update before, we're resending to ensure some housekeeping features are included to help further enhance your user experience.

For F-150® LARIAT and Platinum:

In-Vehicle Voice Feedback

If you've ever wanted to share instant feedback with Ford, but then either forget or just can't find time to look up contact info, write the note and send it — well, we have good news for you.

With this latest Ford Power-Up software update, you can now share your experiences by recording and sending voice feedback from the convenience of your vehicle. We will use this feedback to help make quality and design improvements. If you have a safety or service-related concern, please contact your dealer or the Customer Relationship Center.

To learn more about this feature, simply go to General Settings and look for Record Feedback.

We look forward to hearing from you.

2023 MY F-150 Lightning
(SYNC)
4.2.2.2

We've been busy. Check these out.

If your Ford F-150 Lightning truck is the LARIAT® or Platinum® model, you'll receive the following updates:

Video Streaming

Charging your vehicle is about to get more entertaining. You will soon be able to watch video streaming on your SYNC® 4A Technology screen. Tap on the top center icon and click the entertainment tab to get started. All you need is a Ford Streaming Connected Service plan or Wi-Fi to begin. For more details on Ford Streaming, check out the Connected Services tile in the FordPass® App or visit [Ford.com/connectedservices](https://ford.com/connectedservices). Only available in the U.S.

SYNC® 4A With Even More Wow

We just unveiled a new, modern design that will make it simple to find your favorite settings and controls, create your personal profile, return to the home screen and even set your cabin temp using the volume knob.

There's more:

Home Screen — Simple refinements to improve navigation and to access your games or video streaming

Status Bar — New icons to help you find your favorite features quicker

Settings and Controls — Consolidated so you can easily access drive modes and Software Update details

Personal Profile — Personalize your in-vehicle experience with a personal profile

Software Updates — Choose preselected days and times based on our recommendations or pick your own to create a custom in-vehicle schedule to better fit your lifestyle

If your Ford F-150 Lightning truck is the Pro or XLT model, you'll also receive the following update:

Dynamic Resizing

When you're using Android Auto™ or Apple CarPlay®, you can now make them appear on your touchscreen in the size you prefer.*

There's some fun stuff here. Have a look.

Wi-Fi From Wherever

This convenient Ford Power-Up software update allows you to connect to public Wi-Fi hotspots through SYNC® from virtually anywhere.

So, whether you're sitting in a restaurant's parking lot enjoying a lunch break or waiting outside a retail store or coffee shop, you will be able to connect to public Wi-Fi through your SYNC screen. Then it's just a matter of being redirected to accept any terms and conditions and voilà — you're online.

Take advantage of this feature so you can download software updates fast, get seamless access to popular news and entertainment platforms and more, right on your in-vehicle screen.

Video Streaming

Charging your vehicle is about to get way more entertaining. That's because you can now watch video streaming services on your SYNC® 4A Technology screen. Follow what's happening in the world, catch up on your favorite TV shows, check out a how-to, laugh at silly videos ... however you prefer to pass the time while in Park. No judgment here. All you need is a Ford Streaming Connected Service plan or Wi-Fi connection to let the entertainment begin. Available in US Only.

Game On

Bridge Battle is a strategy game played between two players or the computer. To win, you must create a bridge from one of your sides to the other before your opponent does. And, if you like puzzles, you'll love Parking Lot. The objective of this game is to find a pathway to get your hero car out of a busy lot.

For all F-150® Lightning® trucks:
