

# Service Bulletin

Bulletin No.: 23-NA-017

Date: April, 2023

## TECHNICAL

**Subject:** High Pitched Squealing, Moan or Whistling Noise at Idle

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Silverado 2500HD/3500HD	2022	2023			L8T	
GMC	Sierra 2500HD/3500HD						

<b>Involved Region or Country</b>	North America
<b>Condition</b>	Some customers may comment that a high pitch squeal, moan or a whistling noise can be heard at idle Some technicians may comment that the noise can be heard at the rear main seal of the engine and may continue for a few seconds after the engine is shut off.
<b>Cause</b>	 <p style="text-align: right;">6270638</p> <p>This condition may be caused by excessive crankcase vacuum from a restriction on the PCV of the air cleaner outlet duct.</p>
<b>Correction</b>	If the noise has been validated, remove the oil cap or oil level indicator to verify that the noise has been eliminated. If the noise has been eliminated, replace the air cleaner outlet duct.

**Important:** Service agents must comply with all International, Federal, State, Provincial, and/or Local laws applicable to the activities it performs under this bulletin, including but not limited to handling, deploying, preparing, classifying, packaging, marking, labeling, and shipping dangerous goods. In the event of a conflict between the procedures set forth in this bulletin and the laws that apply to your dealership, you must follow those applicable laws.
