The following DTC may be stored Passive/Static in the Engine control module, J623 (address word 001):

- DTC P240700**

The event memory must not contain further relevant entries.

Technical Background

Not Applicable

Production Solution

This bulletin will be updated when more information is available. A solution is currently under development.

Service

1. Delete DTC P240700 and release the vehicle to the customer.
2. Explain to the customer that a solution is expected to be available by the end of the 3rd quarter of 2023 (subject to change) and no repairs are necessary at this point. Do not replace any components for this condition since it will not resolve the customer's concern.
3. Create a PSS record in the PSS application through the Pending Service Solutions (PSS) link in Access Audi (under *Related Links* >> *Service*), or through the Technical Assistance page in Elsa.

Warranty

This TSB is informational only and not applicable to any Audi Warranty.

Additional Information

All parts and service references provided in this TSB (**2066675**) are subject to change and/or removal.
