## GENERAL BULLETIN GB2023002 GM - IH IROS Fuel Tank Option Compatibility

Subject:	GM - IH IROS Fuel Tank Option Compatibility
Attn:	IMT Distributors
From:	IMT Sales
Date:	April 1, 2023
Affected Models:	All Dominator Body Models

IMT has been recently made aware that GM Silverado 4500/5500/6500 and International CV series chassis equipped with IROS (International Ride-Optimized Suspension) air ride suspension are not compatible with IMT Dominator bodies if the chassis is equipped with a rear mounted fuel tank. The air ride suspension with rear mounted fuel tank configuration requires an after frame dimension that exceeds the allowable maximum for mounting of a Dominator body.

Dominator bodies can only be upfitted with the IROS suspension only when combined with the 25 gallon mid-mounted left side tank option. Chassis equipped with an incompatible fuel tank option cannot be used. Please refer to the chart below.

FUEL TANK OPTION	GM OPTION CODE	IH OPTION CODE	COMPATIBLE WITH IMT DOMINATOR BODY
(1) 40 GAL. REAR MOUNT	RPO N2L	15SZN	NO
(1) 40 GAL. REAR MOUNT & (1) 25 GAL. MID-MOUNT	RPO NSQ	15DSZ	NO
(1) 25 GAL. MID-MOUNT	RPO NVK	15SZP	YES
