

Service Information

Offboard Diagnostic Information System Service (ODIS Service) Number: AOS-23-06

Subject: Adapting A-Battery Test Hotfix Instructions Date: May. 24, 2023

To All Dealer Partners,

There is a new safety-function at J533 which blocks the adaption of the new battery using the Adapting A-Battery function test plan in ODIS. We already implemented a solution and adapted a new test program algorithm. Please load the attached hotfix A_2.31.0_Ticket_00122135_12VBatteryAdaption_20230524-074159 and perform the function test again.

The VAS tester must be on the latest and greatest ODIS software version Application 11.0.01 and Audi Brand 2.31.00.

For questions or concerns, please reach out to David Provonche, 248-754-6091.
