Sincerely,

Gregory Gunther

Senior Manager, Vehicle Compliance & Analysis

Service Campaign OTA Notification		August 28, 2023
Campaign No. :	Campaign Desc. :	Communication Module Software Update – Mercedes Me connect
N/A	23P5497129 23P5497130 23P5497141 23P5497142	
<p>This is to notify you of the Over-The-Air (“OTA”) Service Campaign for the communication module software for Mercedes Me connected vehicles in 465,777 Model Year (“MY”) 2018-2023 A-Class, C-Class, CLA, CLS, E-Class, G-Class, GLA. GLB. GLC, GLE, GLS, GT, S-Class, SL, and SLC (117, 118, 166, 167, 172, 177, 190, 205, 213, 217, 222, 231, 238, 247, 253, 257, 290, 292, and 463 platform) vehicles. The vehicles <u>will not</u> be visible or flagged in VMI or EVA.</p>		
Background		
Issue	<p>Mercedes-Benz AG (“MBAG”), the manufacturer of Mercedes-Benz vehicles, has determined that on certain MY 2018-2023 C-Class, EQE, EQE SUV, EQS, EQS SUV, GLC, GLE and S-Class (206, 295, 294, 297, 296, 254, 167 and 223 platform) vehicles, the communication module software does not correspond with the latest series production configuration. The update is free of charge and will be carried out in the background.</p> <p>The installation will eliminate software errors for a better entertainment experience. The update will show after the ignition has been cycled.</p>	
What We’re Doing	<p>MBUSA will conduct an OTA service campaign. A workshop visit for the customer is not required since remote software updates are automatically downloaded and installed in the customer’s vehicle. The OTA may be validated as successful on the customer’s Mercedes Me connect app under “Over-the-Air Vehicle Updates” as “Update for the communication module”. If the OTA is successful it will show a green “installed” and date of installation in the Over-the-Air update section.</p>	
Parts	<p>Parts are not required for repair. Remedy software will be pushed via OTA.</p>	
Vehicles Affected		
Vehicle Model Year(s)	2018-2023	
Vehicle Model	A-Class, C-Class, CLA, CLS, E-Class, G-Class, GLA. GLB. GLC, GLE, GLS, GT, S-Class, SL, and SLC	
Vehicle Populations		
Total Campaign Population	465,777	
Next Steps/Notes		
Customer Notification Timeline	No customer letters will be mailed.	
AOMS/SOMS	AOMs – This OTA service campaign may generate questions from your dealers.	
<p>While we regret any inconvenience this may cause, MBUSA is determined to maintain a high level of vehicle quality and customer satisfaction. Please refer all customer inquiries to the Customer Assistance Center at 1-800-FOR-MERCEDES.</p>		

No Service Action is required by the Dealer for this Campaign

Over-the-Air (“OTA”) Updates are performed remotely and do not require a dealer visit. Customers can continue to drive their vehicles. If the vehicle has not been driven in four or more weeks – we suggest that the ignition be cycled once to initialize the process, sufficient battery voltage may be required for the software update to be initialized.

Please read further to understand:

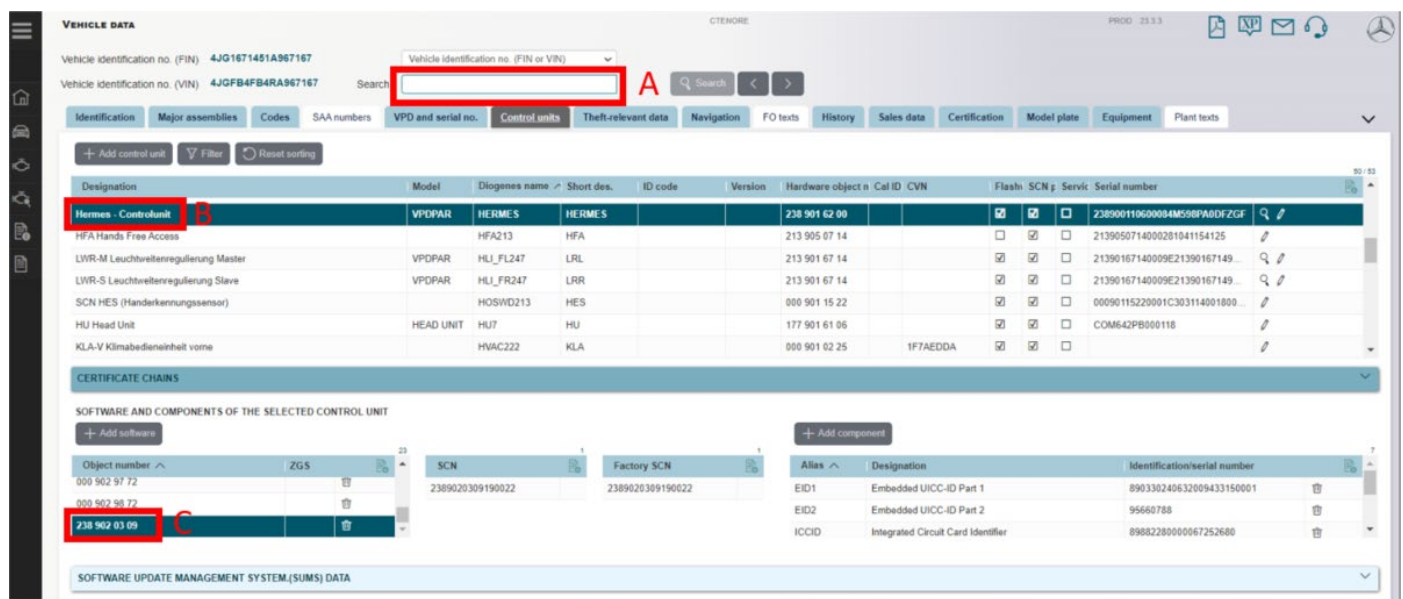

A. Dealer instructions to verify a successful OTA update: Helpful information for you and your customers on how to check for successful update.

For real time info, please see the following example to check in VeDoc or alternatively on the Mercedes Me App.

VeDoc

- 1) Dealer can check VeDoc (Figure 1 and Table 1).
 - a. A VIN can be searched via VeDoc (Figure 1, A).
 - b. Click Hermes – Control unit (Figure 1, B).
 - c. Check Object Number (Figure 1, C) with Table 1.
 - d. If the Object matches with Table 1 than the OTA was successful.

(Figure 1 – VeDoc example. A – VIN, B – HERMES – Control unit, C – Object Number)

Table 1

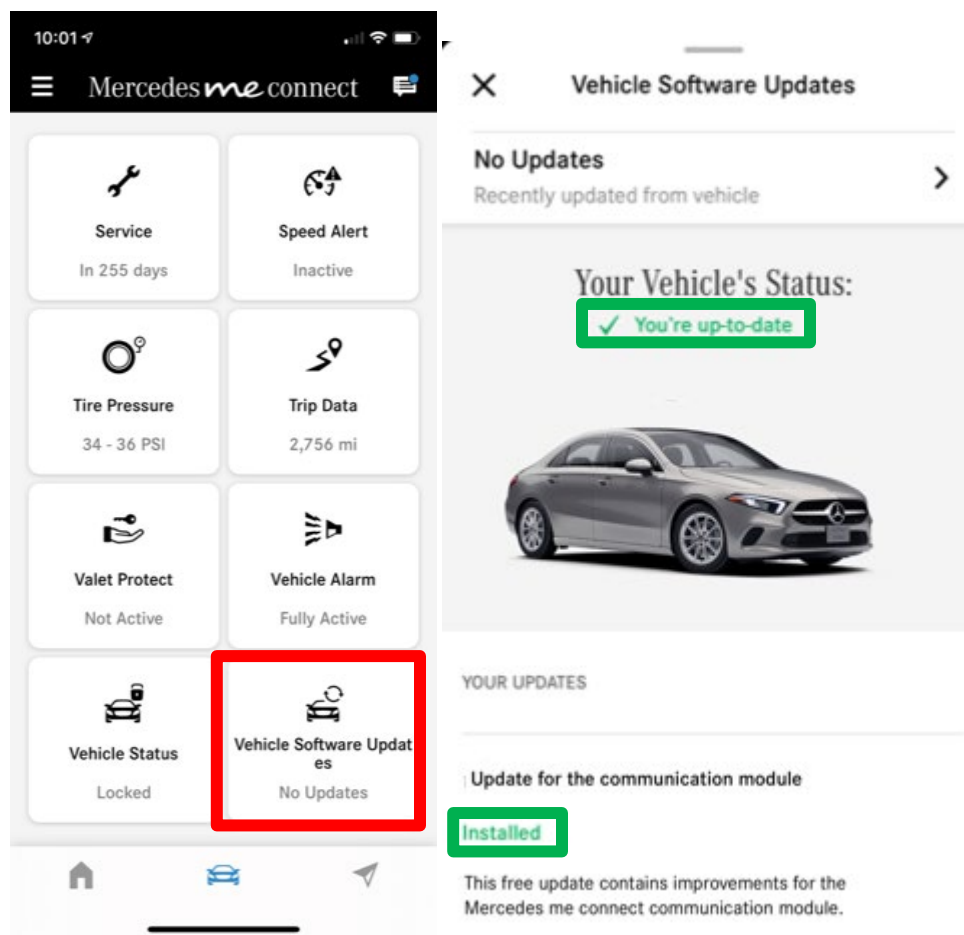

Part	Object Number
SW HERMES	A 222 902 47 21

Mercedes Me Connect App

2) **Customers** can alternatively check the status of the update in the vehicle by checking the Mercedes-Me Connect App on Android or Apple (Figure 2).

- Click the vehicle icon (bottom middle) on the home screen of the MMe Connect App.
- Click “Vehicle Software Updates” (red box Figure 2, A).
- Status is shown green box in (Figure 2, B).
