COOLANT SERVICE PROCEDURE

APPLIED VEHICLES: 2022-2023 Rogue (T33)

APPLIED ENGINES: KR15DDT

SERVICE INFORMATION

When draining and refilling the vehicle's coolant for any reason, refer to the Electronic Service Manual (ESM) to ensure that the correct service procedure is being used, and that all air pockets have been completely purged.

When refilling the cooling system, use Genuine Nissan BLUE LONG LIFE ANTIFREEZE or its equivalent, mixed with water that is distilled or demineralized.

- Refer to the ESM: **ENGINE > ENGINE COOLING SYSTEM > KR15DDT > PERIODIC MAINTENANCE > ENGINE COOLANT > Refilling**

NOTICE

Do not put additives such as water leak preventive, since it may cause cooling waterway clogging.

Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.

PARTS INFORMATION

DESCRIPTION	PART NUMBER	QUANTITY
BLUE LONG LIFE ANTIFREEZE (1)	999MPL25500P	As needed
