

Technical Service Bulletin

90 Driver assist systems control unit, DTC U10DA00

90 23 39 2071415/1 September 11, 2023.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
RS 6, and RS Q8	2024	All	Not Applicable

Condition

Customer States:

There is no customer concern reported; this is found during service/diagnosis.

Workshop findings:

The following DTC and symptom code combination is stored in the driver assist systems control unit, -J1121- (address word 00A5):

- **DTC U10DA00:** Invalid Coding (sym 4158)

NOTICE

This TSB only applies if the exact event memory entry above including the exact corresponding symptom number is logged.

Technical Background

A diagnostic shortcoming in the driver assist systems control unit -J1121- (diagnostic address 00A5) may cause **DTC U10DA00** (4158) to be entered erroneously (Ghost DTC).

Production Solution

Not applicable.

Service

No repair is available at this time.

1. Do not perform any repairs. Any repairs for this concern may be denied.
2. The event memory entry does **not** lead to a restricted function or a message in the instrument cluster. Further measures are not required.

Technical Service Bulletin

Warranty

This TSB is informational only and not applicable to any Audi Warranty.

Additional Information

All part and service references provided in this TSB (**2071415**) are subject to change and/or removal. Always check with your Parts Department and/or ETKA for the latest information and parts bulletins. Please check the Repair Manual for fasteners, bolts, nuts, and screws that require replacement during the repair.
