2015
A5, S5, and RS5 Cabriolet | Audi Technician Report

Stock No. _____

Dealer Number _____

R.O. No. _____

VIN _____

Road test mileage out _____

Road test mileage in _____

All items must be completed prior to customer delivery by an Audi technician

***Refer to the Special functions tab of ODIS Diagnosis using GFF for the PDI function tests**

***Audi recommends using an Audi approved battery charger to prevent excessive battery discharge during inspection*

Open Campaigns/Updates

☐ Check Elsa for open campaigns and updates. Perform campaigns not requiring SVM if applicable. Campaigns requiring SVM should only be performed after the vehicle has been taken out of transport mode

Battery Inspection

☐ Check battery clamps for proper torque. Re-torque if required

☐ Perform the A-battery test for new batteries using GFF in ODIS Diagnosis –> Special functions –> Service work. Select option 2, the battery test for new batteries as part of the pre–delivery inspection and act according to the test result (ok, recharge, replace). Ensure diagnosis log is uploaded to the GFF paperless server by selecting "*ok*" when tester wants to send the current generated diagnosis protocol online. (*Note: Do not use Guided Function. The diagnosis log will not be uploaded to GFF paperless*)

Transport Mode Deactivation, DTC check, set service reminder

It is advised to start ODIS with the engine running to enable all 5F Test Plans in GFF and also to ensure SVM sees all control units during the SVM check vehicle configuration

☐ Deactivate vehicle transport mode (via Special functions –> Service work –> 19-Transport mode activating/deactivating)

☐ Set service reminder (via Special functions –> Service work –> 17-PDI-resetting SRI at PDI, counter reset, etc.)

☐ For MMI3G+ vehicles, set adaptation channel (via Special functions –> Service work –> : 5F–Activating/deactivating storage of music). Also referred to as CD Ripping. Perform hard reset of the MMI to complete the activation

☐ Perform any campaign update requiring SVM at this time (follow instructions listed in campaign documentation)

Under the Hood Fluid Check and Inspection

☐ Check all fluid levels and top off if necessary

☐ Check engine oil level using Special Tool T40178 on a flat and level surface

Trunk Inspection

☐ Install wheel bolt cover removal tool from PDI kit and wheel lock key (if applicable) into trunk tool kit behind right side cover

☐ Set spare tire pressure

☐ Verify trunk operation, including emergency release handle

Exterior

☐ Test windshield washers for aim and function

☐ Turn on headlights and test headlamp washers (if equipped)

☐ Test exterior lighting functions

☐ Check key functionality including seat memory (if applicable); verify vehicle starts and runs with the start/stop button; verify all doors lock/unlock with remote and Advanced Key, including door handle sensors (if equipped)

Interior

☐ Check operation of all switches: Locks, windows, seat adjustment, and child safety features

☐ Calibrate rear view mirror compass to proper zone and check self-dimming function/lighting (if equipped)

☐ Verify operation of all interior lights

☐ Mirrors: Inspect folding, adjustments, RH tilt in reverse, and memory (if equipped)

☐ Inspect operation of lighter, aux. outlet under armrest and rear outlet

☐ Verify operation of all front and rear seat belts and latches

☐ Check horn operation

☐ Passenger side airbag: Verify operation of Passenger Occupant Detection System

☐ Verify convertible top manual closing tools are present

Radio

☐ Verify operation of CD player

☐ Verify operation of AMI or aux. input (if equipped)

☐ SD card slot: Insert SD card and test function (Test all SD card slots as equipped)

☐ Verify HD Radio is turned "off" in Radio/Settings Menu

Audi MMI/Navigation

☐ Verify and set language and Measurement Units in Setup Menu

☐ Set Time source setting to "**GPS**" and set Auto daylight savings time to "**on**." Change time zone to the appropriate dealer location

Audi MMI/Navigation (continued)

☐ Navigation mode (if equipped): Set dealership location (for following back to dealership during road test)

Onboard Video Tutorials

☐ Load Onboard Video Tutorials

☐ Turn ignition on

☐ Insert the Onboard DVD into the DVD Drive

☐ Select the CAR function button. System will initialize

☐ Select the Owner's Man. function by selecting the upper right control button

☐ Select "Yes"

☐ Select "CD/DVD"

☐ Select "Start update"

☐ Turn off ignition to start update (the update will take approx. 5 minutes)

☐ Once completed, remove the disk and place back into the case for the next vehicle

Audi connect (USA ONLY) (if equipped)

☐ Verify Audi connect Information Packet is present, including Audi brochure, T-Mobile brochure, customer SIM card, T-Mobile Terms & Conditions (T&C) (if applicable)

☐ Connect the **dealer demo** SIM card to the vehicle and make sure the system fully connects to 2G or 3G (2G or 3G symbol with arrows)(only applies if in a T-Mobile service area)

☐ Enable Google Earth in the navigation settings and verify the white Google Logo appears next to the 2G or 3G symbol

☐ Ensure the wireless network is turned on (TEL function button > Settings Ctrl button > Wi-Fi settings > Wi-Fi active > select "Visible")

☐ Check Wi-Fi hotspot functionality is enabled and verify the SSID is set to "AUDIXXXXX," where XXXXX = the last five digits of VIN that are automatically preset in the system

On-Hoist Inspection

☐ Check vehicle underside for fluid leaks and loose components

☐ Check steering, boots, brake system, hoses, tires and wheels for damage

☐ Remove transport suspension blocks (if installed)

☐ Inspect wheel bolts for proper torque using torque wrench

☐ Install wheel bolt covers and center caps as supplied

On-Hoist Inspection (continued)

☐ If a known "sold" unit, set to appropriate Normal Load Condition. *See separate "2015 Normal Load Condition Tire Pressure Table" posted on ServiceNet*. If going to stock, set to maximum recommended tire pressures listed on the B-pillar doorjamb, and store tire pressure values in Car/System menu

Road Test

☐ Check for squeaks, rattles and wind noise

☐ With engine running to conserve battery power, test folding power top

☐ Verify engine performance and acceleration

☐ Test operation of folding power top (Cabriolet)

☐ Verify operation of rear view camera and rear parking sensors (if equipped)

☐ Verify Audi side assist functionality (if equipped)

☐ Verify Audi active lane assist functionality (if equipped)

☐ Verify transmission operation including shift paddles

☐ Check steering/tire alignment

☐ Test drive vehicle applying brakes at least 4 times at 20 mph (35 km/h) to clean brake rotors. Check for abnormal noise/ vibration/pulsation

☐ Parking brake: Apply and verify hold and release

☐ Verify quality of radio reception in AM/FM/SAT bands

☐ Verify cruise control/ACC functionality (if equipped)

☐ Verify functionality of heated/ventilated seats and neck-level heating system (if equipped)

☐ Climate control: Verify all functions and ensure proper A/C cooling

☐ Navigation function (if equipped): Activate NAV and follow directions back to dealership

Post-Road Test Inspection

☐ Interrogate fault memory using using Scan Tool and print Diagnostic Log

☐ Record final mileage on checklist and sign checklist

☐ Ensure the yellow tire pressure tag is installed on steering wheel

If Vehicle is for Showroom Display/Inventory Storage or Demo Use

☐ Install showroom charger to ensure battery remains charged at all times

☐ Apply Inventory Maintenance Sticker

☐ Install standard wiper blades (if not already installed)

Technician

I certify that all operations have been completed and this vehicle has been prepared in accordance with Audi Procedures and Quality Standards, and has met the standards for Perfect Delivery.
