

2023 MY Escape
(SYNC)
FPU 4.2.2

WHAT'S IN THIS UPDATE?

Ford Power-Up 4.2.2

We think you're going to like this.

Scheduling In-Vehicle is Easier Than Ever

We know how important it is to keep your Ford vehicle up to date with the latest software enhancements and features. We also know how busy you are. So, we've streamlined the entire process to make scheduling Ford Power-Up software updates in-vehicle as easy as can be.

First, we've simplified the recurring update scheduling screen. Here you'll find preselected days and times based on our recommendations that you can quickly choose from. Of course, you can still pick to create a custom schedule to better fit your lifestyle.

To help ensure you're driving the best version of your vehicle, set a Recurring Update Schedule and keep Automatic Updates turned to ON, both of which can be found in settings under Software Updates. If you do, most updates happen seamlessly in the background while you are

driving.

Other updates require your vehicle to be parked and can occur without you having to do a single thing — like leave your bed, your couch or even your home. It's convenient and comprehensive all at once.

Easy Listening

Easy listening improvements have also been made to make using the Apple CarPlay® App easy. And come on, who doesn't want to hear some awesome tunes or a favorite podcast while driving?

Ford Power-Up delivers software updates that are designed to help make your Ford Escape® compact SUV better over time.

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.
