SITUATION

Emergency Stop Assistant is activated. This icon will appear in the CID when this function is activated.

CAUSE

Activation of the Emergency Stop Assistant under the follow conditions:

- Inattention of the driver

The driver does not pay attention to driving for more than 7 seconds.

- Driver does not respond to takeover request

The driver ignores the takeover request (red steering wheel symbol) of an activated driver assistance function.

- Vehicle leaves its driving lane several times

The eye position and the head position of the driver are not detected. At the same time, the vehicle leaves its own lane several times and is guided back to its own lane by the Lane Departure Warning function.

Important: This is not a malfunction of the Emergency Stop Assistant!

PROCEDURE

1.) Inform the customer about the operating principle of the Emergency Stop Assistant.

To do this, use the information given in the Cause section and refer the customer to the “Emergency Stop Assistant” section in the Owner’s Manual.

2.) Inform the customer about the manual abort options.

The braking process initiated by the Emergency Stop Assistant can be aborted in any case by the following measures:

Copyright ©2023 BMW of North America, Inc.

- Actuation of the accelerator pedal
- Abort on the control display
- Actuation of the turn indicator
- Steering intervention

3.) If the customer does not want this feature, it can be activated/deactivated via the settings per the path below. However, the system **cannot** be turned off in the follow situations.

1. **Driver does not respond to takeover request**
2. **Vehicle leaves its driving lane several times**
3. **Activation by speech**

- "Menu"
- "Vehicle apps"
- "Driving Settings"
- "Driver Assistance"
- "Safety and Warnings"
- "Emergency Stop"

Important Note: A parts replacement does not provide a remedy and is therefore not permitted.
