Senior Manager, Vehicle Compliance & Analysis

Service Campaign OTA Notification		December 8, 2023
Campaign No. :	Campaign Desc. :	Air Suspension System Software Update – Mercedes Me Connect OTA
N/A	23P5497243	
<p>This is to notify you of the Service Campaign OTA update for the air suspension system software in 16,722 Model Year (“MY”) 2021-2023 S-Class, EQS (223, 297 platform) vehicles. The vehicles will <u>not be visible or flagged in VMI or EVA.</u></p>		
Background		
Issue	Mercedes-Benz AG (“MBAG”), the manufacturer of Mercedes-Benz vehicles, has determined that on certain MY21-23 S-Class, EQS (223, 297 platform) vehicles, the air suspension system software does not correspond with the latest series production configuration. The air suspension system will receive an OTA update to optimize the system and improve the ground clearance, especially during parking.	
What We’re Doing	MBUSA will conduct an OTA service campaign. Remote software updates are automatically downloaded and installed in the customer’s vehicle free of charge and do not require a dealer visit. No customer letter will be mailed for this OTA software update.	
Parts	Parts are not required for repair. Remedy software will be pushed via OTA.	
Vehicles Affected		
Vehicle Model Year(s)	2021-2023	
Vehicle Model	S-Class, EQS	
Vehicle Population		
Total Campaign Population	16,722	
Next Steps/Notes		
AOMS/SOMS	AOMs – This OTA campaign may generate questions from your dealers.	
<p>While we regret any inconvenience this may cause, MBUSA is determined to maintain a high level of vehicle quality and customer satisfaction. Please refer all customer inquiries to the Customer Assistance Center at 1-800-FOR-MERCEDES.</p>		

No Service Action is required by the Dealer for this Campaign

Over-the-Air (“OTA”) updates are performed remotely and do not require a dealer visit. Customers can continue to drive their vehicle. Sufficient battery voltage may be required for the OTA update to be initialized. If the vehicle has not been driven in four or more weeks, the ignition should be cycled to initialize the process.

Instructions to verify a successful OTA update:

Dealers can check for a successful OTA update in VeDoc, or alternatively the customer can check using the Mercedes me connect App.

VeDoc

Dealers can search the VIN in VeDoc (**Figure 1, A**), then click "Control Units" and "SPC" control unit (**Figure 1, B**). If any of the Object Numbers (**Figure 1, C**) match "223 903 80 05", then the OTA update was successful.

Mercedes Me Connect App

Customers can alternatively check the status of OTA updates using the Mercedes-me connect App on Android or Apple, by navigating to your vehicle’s home page and selecting the “More” icon (**Figure 2**) and selecting “Over-the-Air Vehicle Updates” (**Figure 3**). Successful OTA updates will show as “Installed” (**Figure 4**).
