

2023 MY BRONCO
(SYNC)
FPU 6.3.0

WHAT'S IN THIS UPDATE?

Ford Power-Up 6.3.0

Smart Changes

Step up to the mic

If you've ever wanted to share instant feedback with Ford, now you can by recording and sending voice feedback from the convenience of your vehicle. Available in the U.S. only and requires FordPass® Connect modem activation.

We will use this feedback to help make quality and design improvements. If you have a safety or service-related concern, please contact your dealer or the Customer Relationship Center.

To get started, simply go to the Features tab in-vehicle and tap on Record Feedback.

We look forward to hearing from you.

Improvement to conditions not met alerts

With this update, you'll now receive new pop-up alerts to inform you when a condition is not being met so that you can take the required action to receive your vehicle software update.

For a non-drivable update, conditions may include that your vehicle is parked, it's not running, all the lights are off, doors and trunk are closed, and you're not pressing the brake pedal.

Keeping you in the loop

An adjustment has been made to enhance your SYNC display experience.

Ford Power-Up delivers software updates that are designed to help make your Ford Bronco® SUV better over time.
