	9-2X	2005	2006				
Saturn	Astra	2008	2009				

<b>Involved Region or Country</b>	This program applies to U.S. dealers only and is designed to help facilitate higher completion rates for the safety recalls and vehicle models identified above.
-----------------------------------	--

The National Highway Traffic Safety Administration (NHTSA) is overseeing efforts across all vehicle manufacturers to help improve completion rates for the Takata air bag recall. In support of this initiative, General Motors implemented a Takata Completion Rate Improvement Program on October 1, 2017 that included two components: \$50 Dealer Completion Bonus and Courtesy Transportation Reimbursement. The program officially ended on December 31, 2017, but was extended through February 28, 2018 with modifications and then eventually extended through July 31, 2018 and again on December 31, 2018. The \$50 Dealer Completion Bonus program expired as of December 31, 2018. However, the Courtesy Transportation Reimbursement program continues.

The program is designed to encourage dealers to actively follow-up with affected vehicle owners and assist them with scheduling a service appointment so that this serious safety defect can be corrected as quickly as possible.

### Courtesy Transportation Reimbursement

Even though the involved vehicles are well beyond courtesy transportation eligibility guidelines, dealers are authorized to provide alternate transportation to affected vehicle owners while their vehicle is at a GM dealership for completion of an eligible Takata air bag recall. This could include one-way or two-way shuttle service, one half-day vehicle rental or one full-day vehicle rental with maximum reimbursement capped at one full-day vehicle rental.

The availability of courtesy transportation to these vehicle owners is very important in encouraging them to make their vehicle available as soon as possible for this serious safety related repair. When scheduling service appointments, it is imperative that dealers make sure these vehicle owners clearly understand that some form of courtesy transportation is available and will be provided at no charge while their vehicle is being repaired. The GM recalls and vehicles identified in the following table are eligible for courtesy transportation reimbursement.

Recall Number	Bulletin Subject	Division	Model	Model Year
14491	Front Passenger Air Bag Inflator Assembly	Pontiac	Vibe	2003-2007

For each eligible Takata air bag recall repair performed at a GM dealership for which the vehicle owner requested courtesy transportation, dealers should submit for courtesy transportation reimbursement via the GM Global Warranty System. Check the appropriate recall bulletin in the electronic Service Information (eSI) system for detailed submission instructions.

In summary, the Takata Completion Rate Improvement Program is only applicable to the safety recalls and vehicle models identified above. The involved recall bulletins have been revised accordingly and are available in the electronic Service Information (eSI) system.

If you have any questions or concerns about this program, please contact your District Manager – Aftersales.
