# $\infty$

# **Technical Service Bulletin**

#### Figure 1: wASI connections grayed out.

- When using a wired ASI connection, the system works as expected.
- The 5GHz Wi-Fi network is not broadcast by the vehicle.

#### Workshop findings:

• No Relevant DTCs are stored.

# **Technical Background**

The wireless Audi Smartphone Interface requires the 5GHz Wi-Fi network in the vehicle to communicate and stream its content from the phone to the MMI.

Due to a configuration issue, the 5GHz Wi-Fi may not be available in some vehicles, preventing wASI from functioning.

A wired Audi Smartphone Interface connection is not affected by this issue.

# **Production Solution**

Not applicable.

# Service

1. Please execute the "*Check control module configuration*" test plan under Guided Functions for the Emergency Call Module and Communication Unit (ConBox) -J949- (address word 0075).

# **Technical Service Bulletin**

- 2. Delete all Audi Smartphone Interface (ASI) connections from the vehicle.
- 3. After a bus sleep cycle, the correct functionality should be reestablished.

#### 

Parts replacement does not solve this issue. Claims for replaced parts will be subject to review.
