32235 F150 4x4 Intermittent Noise From Front In 4x2 Mode Only - WSM Update

Some 2011 - 2013 F150 equipped with 4x4 may exhibit a noise from the front hub integrated Wheel End (IWE) areas while operating in 4x2 mode. The noise will cease when the shifted into 4x4 mode. The WSM section 308-07A has been updated to address possible concerns that can occur during IWE installation.
