

**ONLINE AUTOMOTIVE SERVICE INFORMATION SYSTEM  
FOR SEPTEMBER 2013**

44201 2011-2014 F-SUPER DUTY - UNDER HOOD ENGINE SHIELD (BASE 16A238) - DIFFERENCES BETWEEN 6.7L DIESEL AND 6.8L/6.2L GAS ENGINE APPLICATION(S)

2011-2014 F-Super Duty may exhibit a customer complaint that one of the under hood air deflector shield (16A238) is missing on the hood. The 6.7L diesel application requires only one shield, BC3Z-16A238-A to be installed on the underside of the hood on the passenger side. The 6.2L and 6.8L gas application requires only one shield, BC3Z-16A238-C to be installed on the underside of the hood on the driver side. No vehicle was design with both shields and may have an adverse effect on vehicle performance if added. Follow normal Ford catalog advantage or DOES II Part(S) systems for correct part application and availability.
