A New Liner O-Ring Seal is Available for Certain C10 Through C13 Engines {1201, 7555}

SMCS - 1201-SA ; 7555

Engine:

C-10 All

C11 All

C12 and C-12 All

C13 and C-13 All

The new liner o-ring seal available has improved geometry that allows for easier installation.

The color of the o-ring seal changed from orange to purple for identification purposes.

Previous liner o-ring seals are acceptable for use, as long as the liner seats properly in the **engine** cylinder block. If liner cannot be assembled into the **engine** block, replace the 104-3560 Liner Seal with the 437-1409 Liner Seal .

The new 437-1409 Liner Seal is adaptable back to first production of the serial number listed above.
