44543 2011-2014 F-Super Duty - 6.7L Diesel - High Pressure Fuel System Service Kit

A High Pressure Fuel System Service Kit is now available for 6.7L Diesel equipped vehicles for instances when the high pressure fuel system requires replacement due to contamination (Kit number EC3Z-9B246-A). This kit includes the High Pressure Pump (HPP), High Pressure fuel rails, all eight fuel injectors, injector return lines, engine mounted high pressure fuel lines and the HPP fuel supply line s (Fuel temperature and Fuel pressure sensors included). When the high pressure fuel system becomes contaminated with metal, diesel exhaust fluid (DEF), gasoline or other contaminants, it is extremely important that all of these components are replaced. For further information on diesel fuel system contamination and repair procedures, please reference the 6.7L Diesel Fuel System Service Tips Job Aid located on PTS under Service Tips.
