defects in materials and workmanship and is subject to the applicable vehicle and coverage eligibility requirements, exclusions and limitations that apply to the BMW New Vehicle Limited Warranty for Passenger Cars and Light Trucks.

This bulletin is notice of a “limited warranty extension.” This is NOT a notice of a Recall or Service Action.

There is no immediate repair required unless the BMW vehicle is currently experiencing this problem.

Customer Notification Letter – VIN and Component-specific Warranty Extension

Even though this is **NOT** a Recall, BMW NA will begin sending VIN-specific customer notification letters the week of July 13, 2015 in a “phased” release. A sample letter is attached.

ELIGIBLE BMW VEHICLES

To assist you in identifying the eligible vehicles, the DCSnet Warranty Vehicle Inquiry will be updated with the “Vehicle Comment” shown below:

BMW NA has extended the limited warranty for the in-tank fuel delivery module (pump) on this vehicle to 10 years without mileage limitation as determined from the original in-service date, subject to the applicable vehicle and coverage eligibility requirements, exclusions and limitations that apply to the BMW New Vehicle Limited Warranty for Passenger Cars and Light Trucks. Please see SI B01 05 15.

Note: Always check the DCSnet Warranty Vehicle Inquiry “Vehicle Comments” and the “Repair History (Claims)” sections first, before performing any repairs.

PARTS INFORMATION

Please refer to the Electronic Parts Catalog (EPC/ETK), using the customer’s VIN to locate the replacement part numbers.

Note: Only order the necessary quantity of parts you center needs to repair customer vehicles which have a confirmed failure.

Also, refer to ETK and the repair instructions for onetime-use fasteners and component information regarding additional and/or replacement screws, gaskets and seals that need to be installed and claimed.

WARRANTY INFORMATION

The in-tank fuel delivery module (pump) limited warranty extension to 10 years without mileage limitation applies to “eligible US-specification BMW vehicles” that are registered, operated and have their covered repair performed by an authorized BMW center in the United States (including Puerto Rico).

Should the in-tank fuel delivery module (pump) fail again, it is covered by the remaining portion of the extended limited warranty coverage period.

The existing limited warranty coverage for all other parts **has not** changed.

Non-Qualifying Repairs

Non-US specification vehicles, ineligible vehicles, eligible vehicles operated and repaired outside the United States and Puerto Rico and/or the diagnosis and repair of other “unrelated” issues are not covered under the terms of this limited warranty extension.
