Customer states the engine will not crank when the key is in the START position.

RECOMMENDATIONS

This issue is currently under investigation.

Please confirm that the customer's concern is not related to a discharged battery or due to any aftermarket accessory issues.

If the battery is confirmed to be properly charged and there are no aftermarket accessories causing the condition, please contact Technical Assistance (TAS) to submit details on vehicles identified matching the condition described above prior to repair.

If you are attempting to contact TAS on a weekend or TMS holiday, continue with diagnosis and submit the requested information on the next available work day. Retain all replaced parts and technician notes for possible review with TMS TAS Product Engineer.
