

TECHNICAL BULLETIN  
JTB00363NAS1  
30 JUL 2014

© Jaguar Land Rover North America, LLC

NOTE: The information in Technical Bulletins is intended for use by trained, professional Technicians with the knowledge, tools, and equipment required to do the job properly and safely. It informs these Technicians of conditions that may occur on some vehicles, or provides information that could assist in proper vehicle service. The procedures should not be performed by 'do-it-yourselfers'. If you are not a Retailer, do not assume that a condition described affects your vehicle. Contact an authorized Jaguar service facility to determine whether this bulletin applies to a specific vehicle.

**SECTION: 206-03B**

Carbon Ceramic Brake Caliper Color

**AFFECTED VEHICLE RANGE:**

**F-TYPE (X152)**

**Model Year:** 2015 Onwards  
**VIN:** K10868 Onwards

**With:** Carbon Ceramic Brakes

**MARKETS:**

NAS

**CONDITION SUMMARY:**

**This bulletin is for information only.**

**Situation:** On vehicles fitted with the Carbon Ceramic Brake system, the yellow paint of the front brake calipers may be subject to discoloration at extremely high temperatures caused through closed road usage.

**Action:** Should a customer express concern, follow the Service Instruction outlined below.

**PARTS:**

- Information only Quantity: -

**TOOLS:**

No Tools Required

**SERVICE INSTRUCTION:**

**NOTE: Information only; discoloration of the brake caliper will not affect the performance of the brake system. F-TYPE vehicles fitted with Carbon Ceramic Brakes are factory-filled with Castrol SRF React Racing brake fluid and should be topped up as necessary using this fluid only. Refer to the Owner's Handbook for further details.**

1. The yellow paint used on F-TYPE Carbon Ceramic Brakes front brake calipers may be subject to discoloration at extremely high temperatures. These temperatures will not be seen in normal road use unless there is a genuine fault with the caliper (such as 'seizing'). If there is a fault with a caliper, it is likely that only the left-hand or right-hand caliper will be discolored. In this case, you should submit a separate warranty claim.

2. **NOTE: Jaguar Land Rover does not accept any warranty claims through closed road, track, and/or motorsport use.**

Pantone #115 is the color reference as to what is acceptable for the brake caliper paint finish. Anything darker than Pantone #115 means extremely high temperatures have been experienced, which are likely a result of a result of

closed road, track, and/or motorsport use.
