<b>Title</b>	Engine will not crank
<b>Category</b>	Electrical
<b>Last modified</b>	24-Jun-2016 00:00:00
<b>Symptom</b>	203000 Basic Electrical

---

**Content****Issue**

The ignition lights do not illuminate and the engine will not crank. There is no issue with the locking and unlocking the vehicle.

**Cause**

Body Control Software(BCM) at old level.

**Action**

Update the BCM software using Symptom Driven Diagnostics with DVD145, patch P8, Cal 240.

However to do this requires an update to the CCF. Please raise a Technical Assist(TA) for this.

A Technical Bulletin will be released inline with SDD 146 patch 04 on the 18th July which will have all updated CCF's for this issue.
